HEMEROCALLIS LIST - 1951KENWOOD IRIS GARDENS

(Mrs. J. F. Emigholz)

Phone SY. 7496

7595 Montgomery Road

Cincinnati, 36, Ohio

Daylilies are becoming more popular every year. Their ease of growth, and the size and beauty of the flowers, attract many gardeners. You can have bloom from late May until early Fall, by selecting suitable varieties. There is no other perennial that will give you more pleasure. The time of bloom given is in our locality. Many of the varieties bloom later in the East and North.

Several kinds often bloom again in fall, and are marked "X" before the price. Last summer many threw up late bloom stalks that never did so before, due to weather conditions.

The plants need sun at least half a day for bloom, and do their best in a sunny location. Water given before and during the blooming season produce finer and larger blooms. Allow 2 feet between plants for normal growth. When planting, place the crown a little below the surface, and spread out the roots. Any good fertilizer will help growth and bloom. We have found that compost induces a good root growth.

FRAGRANCE: All evening bloomers and the lighter yellows (0-5) are fragrant. Also nearly all in the yellow and orange shades. Pink and red varieties do not seem to have it.

COLOR LISTING: Varieties are placed in color groups. Few people have color charts, and do not know the depth of color from the descriptions. Yellows come in several shades, some greenish as barium or citron yellow, others lemon in color. Then there are pure yellows, as amber, empire and chrome, and some have a touch of gold or orange in their make-up. As the Betscher hybrids are well known, and have a wide color range in the yellow and orange shades, they were used as a basis for depth of color, and begin with "1". Flowers lighter in color are marked "0" or "00" for a paler shade. Other varieties having the same color number may be entirely different in form, size of flower, and height, but are in the same color tone. The numbers are used only to help you select different shades in color. Since this procedure may be difficult to use with pink or red shades, and some color patterns, we are using another plan. These varieties will be marked L. M. or D. before the name, indicating whether they are light, medium or dark in general coloring. Advise if this method is helpful to you.

TRANSPORTATION: Strong, single divisions are sent postpaid. Not small plants that will not bloom. If heavier plants of the less expensive varieties are wanted, have them sent express collect, or enclose extra postage. Larger plants make a better showing. Local orders can be dug any time, if the weather allows, but those for shipping are sent only in early spring until mid-May, and after the blooming season until mid-Oct. Those listed for fall delivery are sent after the middle of August. No orders are accepted under \$2.00. Ohio purchasers, please add sales tax.

SEEDLINGS: Each year new varieties are developed, showing improvements in form and color. Of these, only a few are set aside for further testing. Do you want a thrill? Then try some, all will bloom this year. You will receive colors that are not possible in named varieties offered at the same price. Only sent after the blooming season.

FINE MIXTURE: Includes all colors in a balanced mixture, 8 for \$2.50 postpaid; 20 for \$5.00; 50 for \$10.00, express collect.

ARISTOCRAT SERIES: An extra fine selection, labeled as to color. 6 diff. for \$3.00; 12 diff. for \$5.50 postpaid.

### INTRODUCTIONS

These seedlings have been carefully selected as being distinct and better than known named varieties. Many have written, expressing their satisfaction with them, and ordered more. We have tried to keep prices at a level most people can pay. Good plants sent. Two descriptions are given for these varieties. The colors are taken from Ridgeway's chart for the first description, and are intended for those who want exact colors. The second one gives the general color most people would see in the flower. All pale yellows introduced are distinct in form and growth.

Ten varieties were sent to the Valleevue Test Gardens at Cleveland in the fall of 1949. In their report received recently, 6 were commended in the following groups: AA Superior - Riviera and Samson. A Excellent - Flaming Glory. B Good - Armada, Cool Waters and Mezzotint. Others may receive favorable mention, when the plants are better established.

1951 - There is enough stock of two varieties, for introduction at lower prices.

- 1 EVADNE - 48" July-Aug. Flower 6"x1 $\frac{1}{2}$ ". Amber yellow, flushed deeper, with the sides of the petals brushed with faint pinkish cinamon. Sepals are a shade deeper, green throat. Unfading. Nice form and substance. \$3.00
- L FAIRY MAID - 36" July-Aug. Flower 6"x1-3/8". Petals are ochraceous buff, veined and overcast light carrot red, greenish throat. Sepals flushed a deeper rose shade. Lightly fluted petals that recurve slightly. A nice flesh salmon that holds color. \$4.00
- M GARGOYLE - 40" July. Flower 5 $\frac{1}{2}$ "x1 $\frac{1}{2}$ ". Petals ochraceous buff, overlaid light ferruginous, pale edge, with a faint buff-yellow mid-rib, and a dark band at center. Lemon chrome throat. Sepals a lighter shade. A pleasing color of light brownish tan. Petals twist widely at edges, and gives the flower distinctiveness. \$3.00
- O KENWOOD - 46" Late July-Aug. Flower 6 $\frac{1}{2}$ "x1 $\frac{1}{2}$ ". A lovely large pale lemon, greenish throat, with widely recurving petals, overlapping at the base, like a large pale yellow lily. The loveliest of the pale yellows introduced. Increases slowly. Produces heavy fans of foliage. \$6.00
- M TITIAN - 48" July-Aug. Flower 6 $\frac{1}{2}$ "x1-5/8". Apricot buff, veined and heavily flushed Brazil red, and eyed velvety dark carmine, bronzy edge, that turns white in the afternoon. Deep gold throat, with green center. Sepals brushed English red, gold tips. A large brilliant red toned flower with life and color. Increases slowly. Was much admired. Fall delivery. \$5.00

1950 - Only a few of Admirable and Intensity are available for August delivery.

- L ADMIRABLE - 36" July-Aug. Flower 6 $\frac{1}{2}$ "x1 $\frac{1}{2}$ ". Ochraceous buff petals, closely veined and flushed light Pompeian red, broad light band of same color at center. Lemon throat, greenish center. Sepals leave a pale edge of rosy tone. A broad, slightly reflexing flower that has a decided pink coloring. \$5.00
- D INTENSITY - 36" July-Aug. Flower 6 $\frac{1}{2}$ "x1". A very brilliant velvety dark maroon, with an iridescent gold underlay. Star-shaped cadmium throat. Unfading at 6:P.M. Everyone wanted this variety. \$6.00
- O SOLFERINO - 48" July-Aug. Flower 5 $\frac{1}{2}$ "x1 $\frac{1}{2}$ ". Lemon yellow, with a deeper center and green throat. Larger and broader than Sunny West, with good substance. Fades very little. \$2.50
- O THUNDERCLOUD - 42" July-Aug. Flower 7"x1 $\frac{1}{2}$ ". Petals rosy ferruginous with heavy V-shaped bands of velvety liver brown, pale mid-rib. Sepals same shades, flushed deeper. Large green throat. An unusual shade of light rosy brown, with a blackish band, widely open segments. \$4.00

The following varieties have been introduced from 1943-49.

- 2 APOLLO (46)-45" July-Aug. Lemon chrome, a tone more golden than Hyperion. Has the form of Mrs. Wyman, but is twice as large. Stems branch well. Fragrant. \$1.75
- O ARIADNE (49) - a 7½" flower, with narrow spidery, widely spreading and recurving segments of pale lemon yellow, deeper colored center. Unfading. \$3.00
- M ARMADA (46)-36" July-Aug. An attractive rosy tan yellow, with a distinct velvety band of morocco red. Well branched stems. Free bloomer. \$ .75
- M BOLD WARRIOR (43)-40" July-Aug. Large, broad, overlapping petals of Brazil red and garnet brown, with a chrome yellow throat. Sepals slightly flushed Brazil red. The general coloring, a bright brown red bicolor. \$2.00
- OO COOL WATERS (49)-50" July-Aug. The 6½" bloom has long recurving petals of picric yellow, flushed pale lemon, dark green throat. Good pale greenish yellow. Opens in the evening, and continues through the day. Fragrant. \$3.50
- L CORNELIA (47)-42" July-Aug. Light Eugenia red, with a buff-yellow edge, throat veined carrot red. A pleasing rosy color. \$2.00
- M ETNA (47)-38" July. A 5" bloom of Brazil red, overcast velvety morocco red, greenish throat. Unfading dark carmine red with broad segments. \$3.00
- D EUGENIA (47)-42" July-Aug. Overlapping segments nearly alike in size, with fluted edges. Fine, unfading rosy red, deep chrome throat. \$3.00
- M FLAMING GLORY (43)-50" July-Aug. Fl. over 7" across. A glowing dark scarlet, with an orange underglaze, sepals slightly lighter. Cadmium throat. \$2.00
- 19 GOLD COAST (43)-40" July-Aug. Flowers 7" across, with broad overlapping petals of deep orange gold, with widely branching stems and many buds. \$1.50
- M INVINCIBLE (49)-52" Late July-Aug. The 7" flowers have broad, overlapping petals of showy Chinese red, with a broad velvety carmine band, small green throat. Larger than Rajah, and lighter in color. Does not fade. \$4.00
- L LUSCIOUS (43)-44" July-Aug. A 7" fl. of yellowish apricot, with faint flushes, and banding of Etruscan red on the petals. Lemon throat. Lovely color. \$1.50
- L MARIPOSA (47)-42" July. Light cadmium yellow, with a band of purplish madder brown on all segments. Fl. reflexed, resembles a Mariposa lily. \$2.50
- M MELISSA (48)-36" July-Aug. A 6" bloom with recurving and fluted divisions. Opens or. buff, overlaid Acajou red. Changes to soft old rose, with buff edges. \$1.75
- 21 MEZZOTINT (46)-44" July-Aug. Saffron yellow, shaded deep cadmium at the throat, with a faint fulvous zone on petals. A larger and taller Gypsy. \$2.00
- O NAOMI (49)-60" July-Aug. A lily-like form, with 6½" fl. of pinard yellow, lightly flushed lemon. Broad petals with crinkled edges. Good substance. \$3.00
- M OLD TAPESTRY (43)-36" July. Petals light dragon's blood red with a buff-yellow edge, paler sepals. Lemon chrome throat. A velvety light brownish red. \$ .75
- D PRINCE OF CORINTH (43)-50" July-Aug. Star-shaped open fl. of purplish red, with a garnet mid-zone. Lemon chrome throat. A good foil for yellow shades. \$ .75
